医龍

[いりゅう]

Team Medical Dragon

Someone says the shake
of"Ikyoku-Kouzasei"
caused serious shortage of doctors.
Then, should we go back the times
when many patients were betrayed?
Getting the past back
cannot solve the present problems.
Making future is the only way
to work out a solution.

BIG COMIC SUPERIOR

Team Medical Dragon

朝田、さらなる覚醒…蘇る牙!!

心臓病に冒された野口。
その治療プランを
朝田抜きで立てざるをえなくなった、加藤。
一方、チームを抜けた朝田は、
自らの技術をさらなる高次に押し上げ、
神の城へと突き進む。
しかし同時に、周囲への攻撃性も蘇り、
その牙を、敵だけでなく、
かつての仲間にも剝いてゆく…

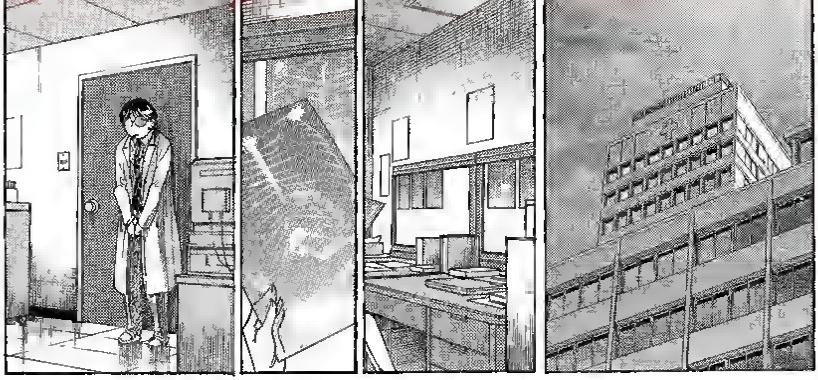
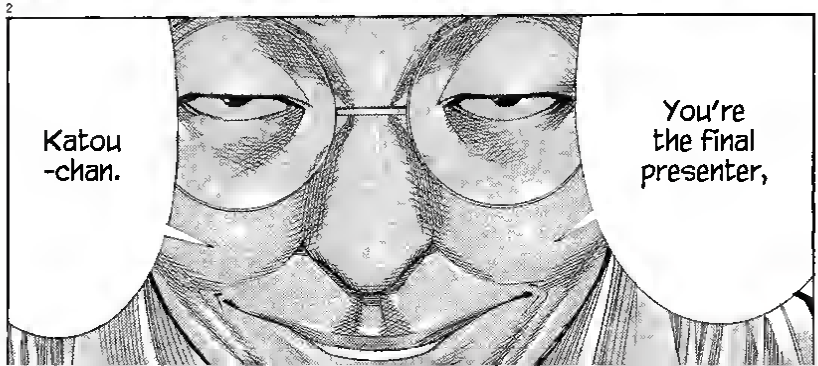
Chapter 164 - Dirty 153

Chapter 165 - The worst 177

Chapter 158
Katou's plan



2



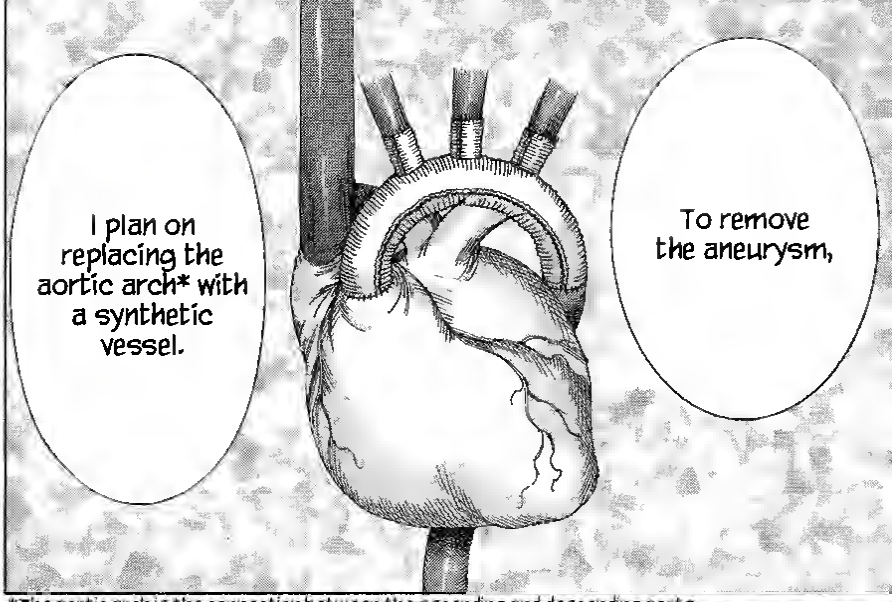
You're mistaken.
I agree.
I noticed, that in addition to the aneurysm, you're also suffering from arteriosclerosis,
the situation is worse than I imagined.
If performed now, before the condition worsens, the chances of success are high.
so I think that a stent graft would be too risky.

** This is a work of fiction, any resemblance to actual people is purely coincidental

OUTERWORLD SCANS

what,
will you propose?
The safest surgery possible
for an aneurysm-

Replacing it with a synthetic blood vessel.



*The aortic arch is the connection between the ascending and descending aorta

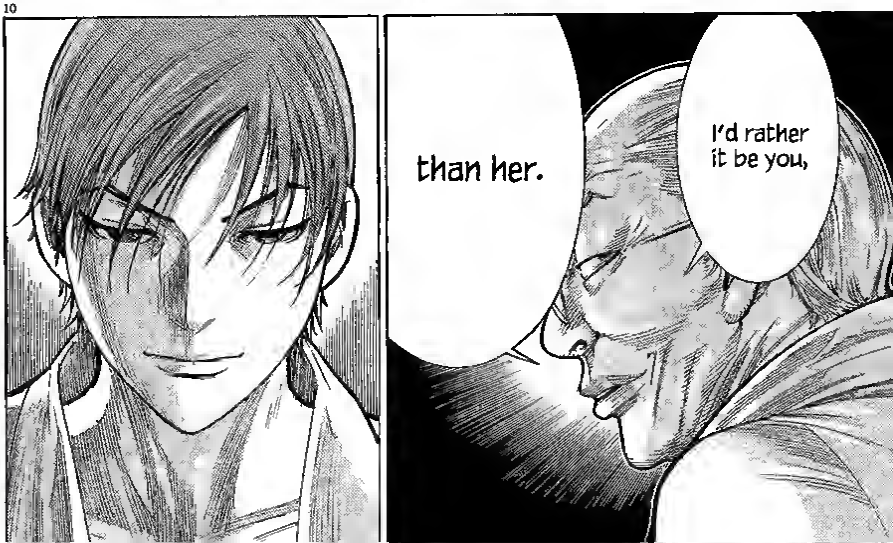
it will buy you some time,
to realize your political dreams.
Just like Kirishima-kun,
you're offering me a plan where I can wait, fufufufu.
Since it's an open chest surgery,
the rehabilitation will take a while.

You won't be able to go back to your everyday life as fast as you could with a stent graft procedure.
Your political activity will be restricted for a while after the surgery.

That is all.
You don't have to make your decision now,
you can take your time choosing your preferred treatment plan.
I

have some other work I need to attend to,
so I'll be leaving now.
You were all laughing...
You,
Kirishima-kun and even Kunitachi-kun.

So that's what she's like
without you backing her up.
Replacing the aneurysm with a synthetic blood vessel,
That's the basic of basics, even Kihara-kun could come up with.
Sure, it's a safe procedure, but...
If I'd have to let someone cut me,

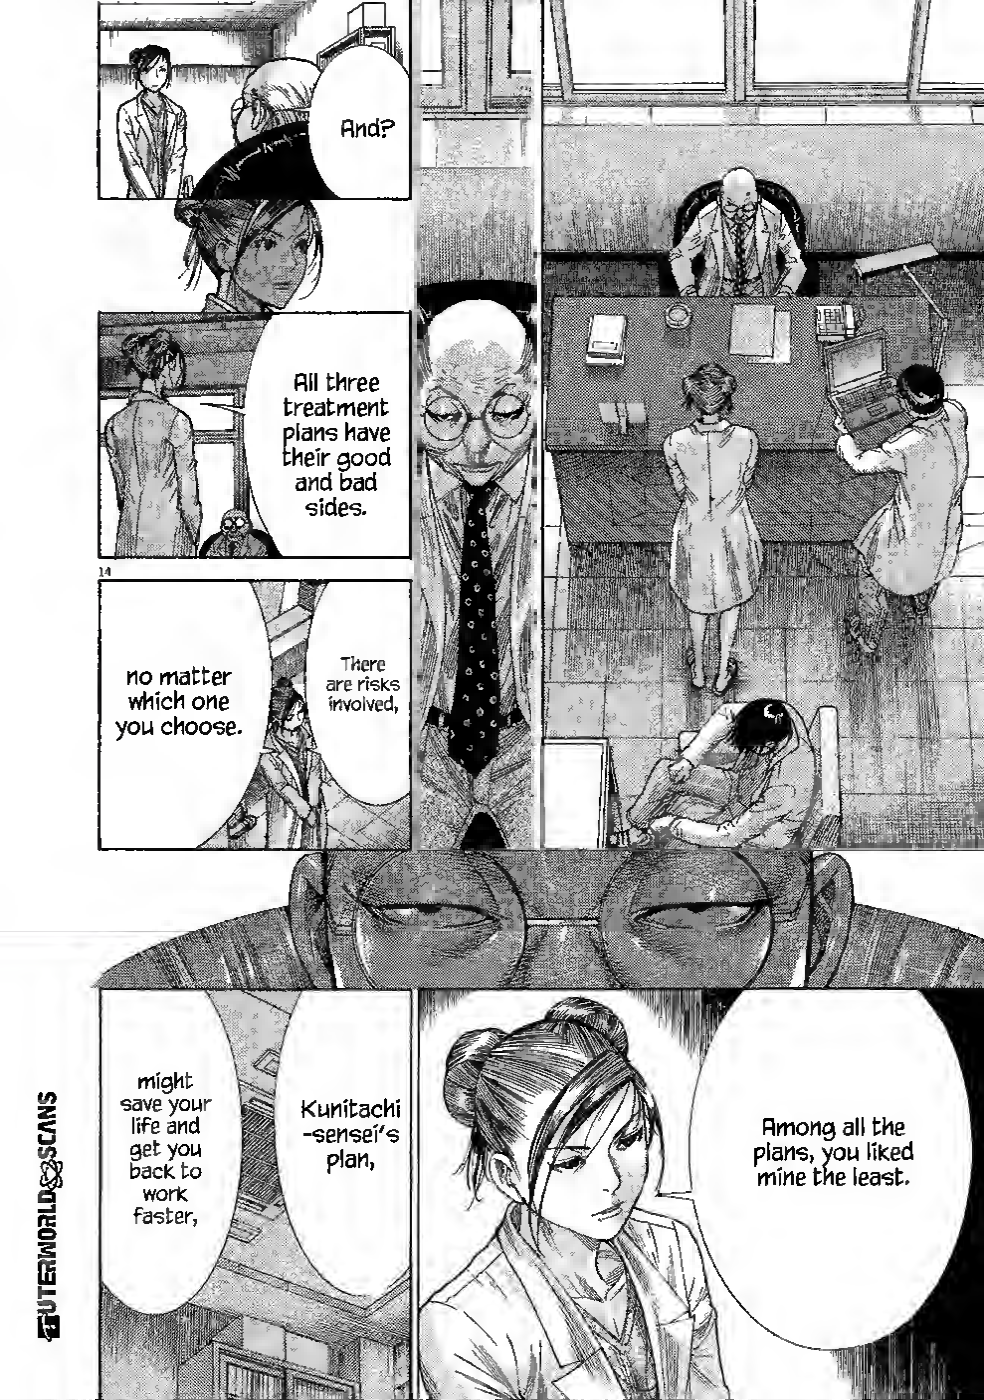


FUTENWORLD SCANS

Compared to the other two, she lacks brilliance.
You were also disap-pointed.
Professor's Office

I've been waiting for you.

Weren't you finished?
Yes.
But it seems you weren't satisfied with that.
So I'd like
to give a clear explanation.



And?
All three treatment plans have their good and bad sides.
14
There are risks involved,
no matter which one you choose.
Among all the plans, you liked mine the least.
Kunitachi -sensei's plan,
might save your life and get you back to work faster,

FUTUREWORLDSCANS

but the risks are high and you'd have to undergo the procedure immediately.
It's possible, that if you had one more week,
you would be able to realize your political dream.
You might get lucky.

Just a bit more,
to wait just a while longer.

That's probably what you're thinking right now.
And while you're thinking that,

your aneurysm might suddenly burst.
I'll keep postponing my decision until I get a fit?
how you see things, huh?
That's

In other words,
if I postpone the surgery and my condition worsens,
the chance of me dying will increase.
not even Asada will be able to save me.
Is that the clear explanation you came to give me?
Huh?
It's the opposite.
Once my aneurysm ruptures I'll be dead in a matter of moments.
When that happens,

What if I told you, that I have a plan,
where you could still be saved, even if your aneurysm ruptures?

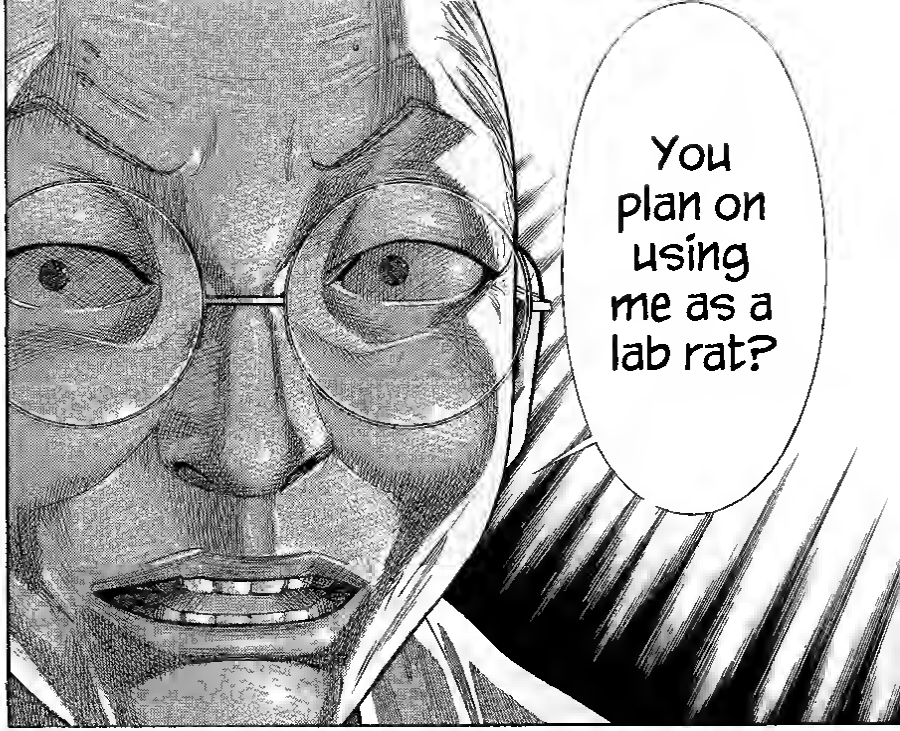
If pos-
sible,
.....
I'd like to replace the aneurysm with a synthetic blood vessel as soon as possible.

for the sake of your unborn grandson.
and also
For the sake of your wife and son,

However,
If you want to pursue your political career that badly,
that you're willing to risk your life for it,
then I've come up with a worst case scenario contingency plan.

FUTUREWORLDSCANS

What the hell is this!?



You plan on using me as a lab rat?

so it's only natural to have a couple of experimental treatments available.
This is a university hospital,

Y-you smoke too much,
it'll worsen your condition.

Please be careful from now on.
As if I'd accept
some-thing like this...!!
